AVERAGE VIABILITY SCORE

"I used VentureAI before pitching to investors. The market sizing and risk breakdown gave me answers I couldn't have prepared in a week of research. Walked in confident."

Sarah M.

Founder, PropTech startup · London

"We run it on every new client idea before taking them on. It's saved us from three bad engagements and given us a credible starting point for the ones we do take. Agency plan is a no-brainer."

Daniel R.

Business Coach · Manchester

"Scored 81/100 on my first idea. Used the 90-day plan almost exactly as written. Hit £4k revenue in month two. I was genuinely shocked at how specific the output was."

Priya K.

Founder, DTC skincare · Birmingham

Your free validation report

Most founders spend months and thousands of pounds before discovering a fatal flaw. VentureAI surfaces those answers in 60 seconds.

Viability score out of 100

Year 1 and 5-year revenue projections

Total addressable market sizing

Competitive landscape overview

Risk assessment with mitigations

90-day step-by-step launch plan

Defensible competitive moat analysis

YOUR IDEA

Describe your business idea in plain English — what it does, who it's for, and how it makes money if you know...

TARGET MARKET

e.g. UK small business owners aged 30-50

STARTING BUDGET

£1,000 – £10,000

YOUR BACKGROUND

e.g. 5 yrs in marketing

Generate validation report

How it works

From rough idea to investor-ready analysis in the time it takes to make a coffee.

i

Describe your idea

Plain English. No business degree needed. The messier the idea, the more useful the feedback.

ii

AI runs the analysis

Market sizing, competitive mapping, revenue modelling, risk scanning — all in under 60 seconds.

iii

Read your report

A viability score, honest financial projections, and a concrete 90-day plan to get to first revenue.

iv

Launch with clarity

Upgrade for the full investor package — or share your score and get instant community feedback.

Built for professionals who validate ideas *for a living*

Business coaches, startup accelerators, and consultants use VentureAI to deliver credible analysis to clients in minutes — not weeks. White-labelled, unlimited, and priced for recurring use.

Run unlimited validations under your own brand

Deliver professional PDF reports to clients instantly

Save 3–5 hours of research per client engagement

Justify your retainer with data-backed analysis

API access for embedding into your own tools
